PLEASE READ THIS BEFORE ORDERING FROM THIS PRICE LIST

About our inventory

We do not keep on hand all the items listed in this price list. Instead we choose to order directly from their warehouse on an as needed basis. This insures fresh and up-to-date product. This enables us to offer many products on an on going basis instead of only carrying inventory during Halloween. We order from Ben Nye Company three to six times per week. If you order early in the day we can usually be ready to ship to you in only a few days.

About this product line

Ben Nye makes excellent products and has steadily grown to be a stable supplier of theatrical makeup to the industry. Other vendors offer a larger variety of products. Other vendors offer some lower prices for comparable products. Ben Nye Company rarely has a back ordered item, maybe two or three per year. A back order from Ben Nye means there is a serious shortage of a chemical in the industry.

About this Vendor

We have been doing business with Ben Nye Company for over a decade. As of 2009 we are number 15 in terms of our dealer ranking. Ben Nye is an excellent company operated by perfectionists. We can order any time of year and still get prompt shipment. BNC often ships the same day they get our order. It only takes two or three business days for us to receive an order from BNC. Ben Nye takes two vacations during the year, one around the 4th of July and another between Christmas and New Years.

About Drop Ships

In an emergency situation we can have Ben Nye ship directly to you. In order to qualify you must be a business or school. They will not direct ship to a residence or theater. Ben Nye charges an extra fee for this service. We usually lose money if the order is less than \$100. Please avoid drop ships if you can.

About Refills

Often when you buy a palette you use one color more than another. Or you want to assemble your own palette and fill with the colors you want. In either case many brands offer refills.

Refills come in two sizes. The smaller size is for snap-in palettes. It's a plastic part that pushes into the tin boxes. These are the same kinds of boxes that your water colors came in when you were a kid, but instead of water color they are makeup.

Prices Subject to change without notice.

www.fxsupply.com

Ben Nye Refills

The larger size comes in a metal pan. These are for dry products such as eye shadows. The metal pan is held in place by the sheet magnet that is built into the box.

Refills can be either a dry makeup of some kind, or crème. Make sure you pick the right product line.

You don't want to snap a crème makeup into a water based box. It's best to find the part number off your old makeup, refer to the catalog or the original tin.

Refills cost less than the retail packaging because they don't come in a case.

Empty tins and palettes are also available. If you are building up your own palette please make sure that the refills will fit in your box.

Introduction

SES is pleased to offer two kinds of refills for Ben Nye Theatrical Makeup. The first group of refills is for the Refillable Metal Palette box, the second group is for the Pressed Colour Palette boxes. Please be careful, don't order the wrong refills.

Metal Palette Boxes and Refills

These metal palette boxes are like the water-color boxes you got when you were a kid. They are metal with small detents that hold the refills.

Boxes:
