Makeup Kits for Theater

Recommendations for School Theater: Get individual kits for hygienic reasons. Supplement the production with a larger theatrical kit (and keep it under your control.) Use Fair for white females. Use Med. for white males (teenagers). Cream makeup is the traditional stage makeup, it is heavy and stays on if applied properly, but often will cause acne.

Cake makeup is more comfortable to wear, but has the tendency to streak if improperly applied, easier to wash off. In a school setting a single kits become trashed almost instantly, so if more makeup or components are needed simply get multiple containers of what you need and create "Work stations" that can be used by several students at once.

F.Y.I.: Street makeup doesn't work on the stage because theatrical lights wash out (punch through) the weak pigment load. Theatrical makeup is designed to hold its color even when brightly lit.

Mehron Student Kits:

Cream makeup (oil based) for individual use. Best value if cost is a factor. Enough for 10-15 applications.

ME-KMP-NF Student Makeup Kit, Fair/Olive Complexion \$14.95

Makeup Kits for Theater

Ben Nye Creme Theatrical Makeup Kits

Cream makeup (oil based). BN says, "After more than 30 years, Ben Nye's legendary kits continue to be a major asset for basic and advanced makeup instruction. Our distinctive creme colors are fundamental for straight, age and special character effects. Directors often combine several kits to equip an entire production." NOTE: In 2005 BN made some small changes to this kit to improve product selection.
